

Step by Step : Report Design – GRN Barcode

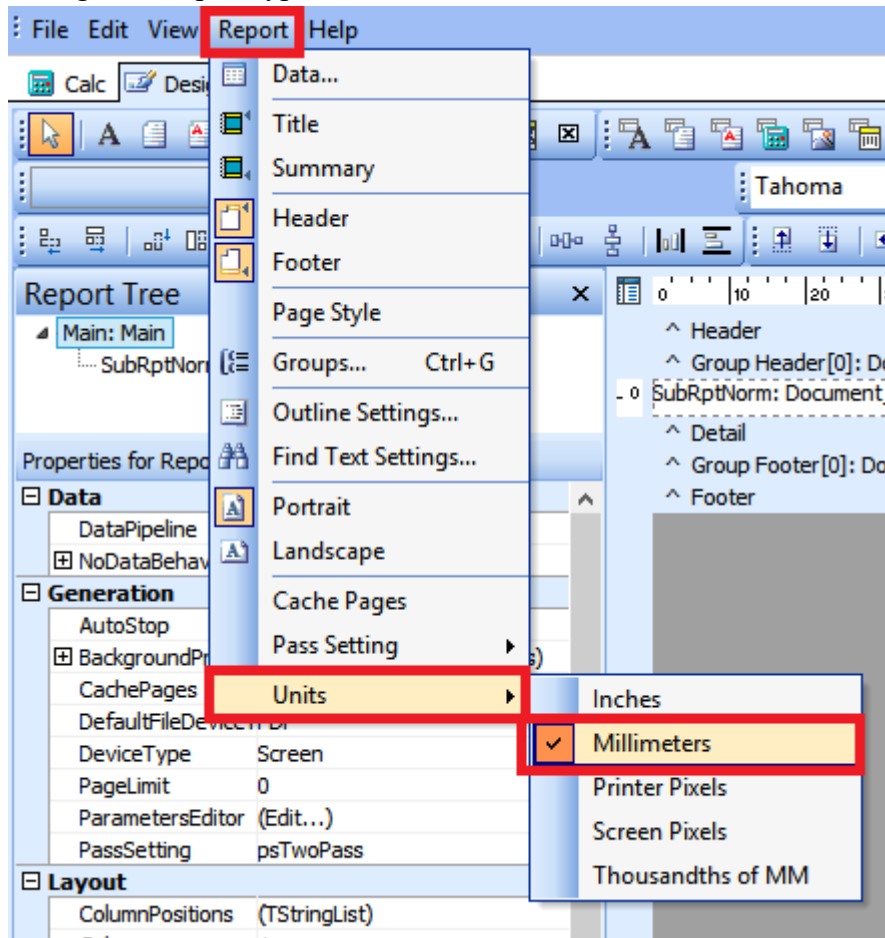

1. Download GRN Barcode Report Template from below link :
 - 1.1 Barcode Capture from Maintain Stock Item Barcode as Barcode
<http://www.sql.com.my/webstore/templates/01-grn-barcode-20-40-captureitembarcode>
 - 1.2 Barcode Capture from Maintain Stock Item as Barcode
<http://www.sql.com.my/webstore/templates/02-grn-barcode-35-25-captureitemcode>
2. Step to Import the report to SQL
Logon SQL | Tools | Report Designer | Click on Import | Fast Report(*.fr3) |
Change to SQL Reports(*.rtm) | Select report download from Step1.1/Step 1.2

<http://www.sql.com.my/sqlacc.intro/tutorial/> Look for Step 10.01
3. Purchase | Goods Received Note | Preview |

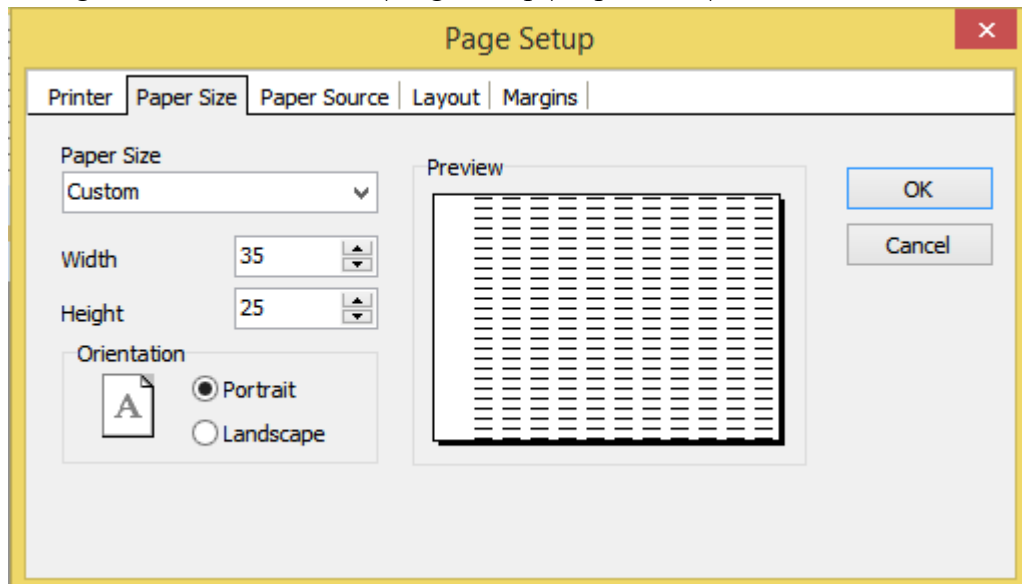

- Click on blue color link to enter into Report Design.

4. Change the Report type to MM due to Barcode size is small

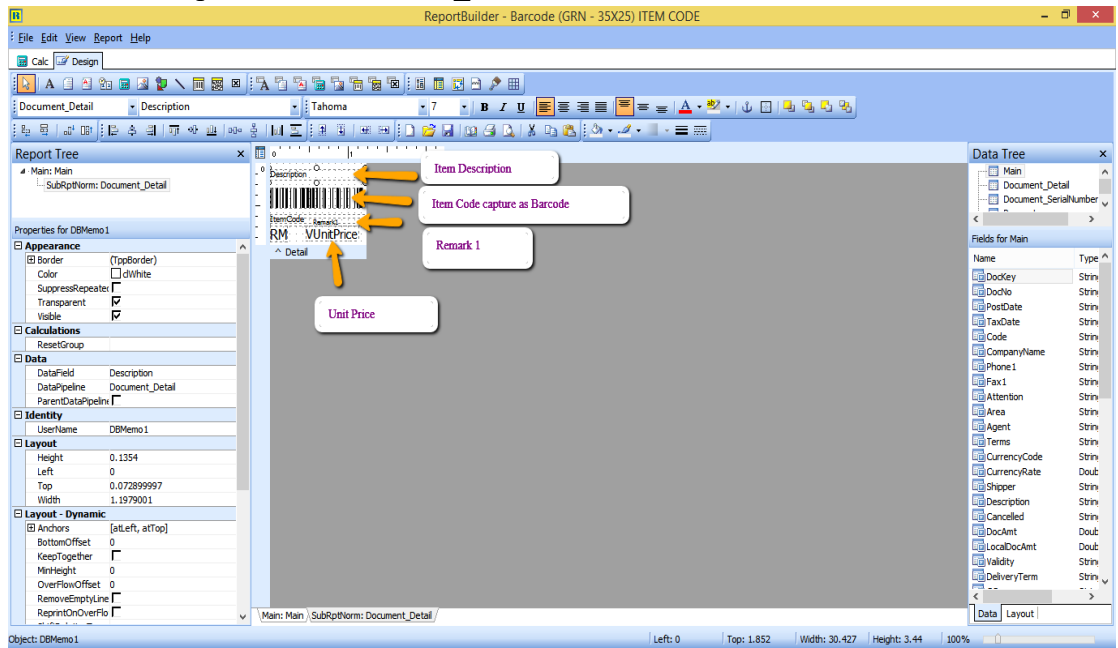

5. Change barcode size -> File | Page Setup | Paper Size |

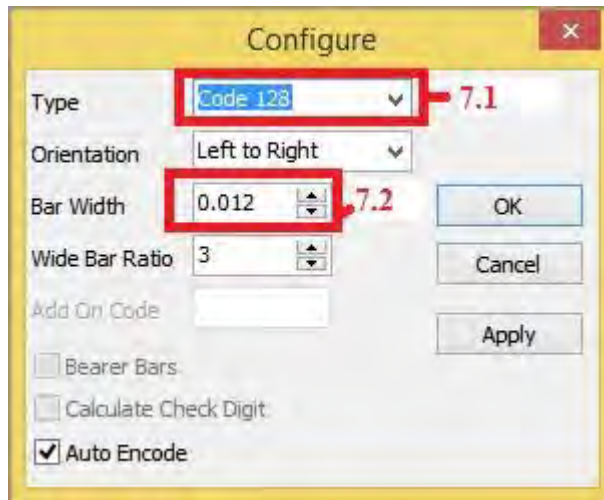

- Currently this sample is Width = 35mm | Height = 25mm

6. Click on SubRptNorm : Document_Detail

* From here you may change the Barcode layout.

7. Click on DBBarcode | Right click | Configure

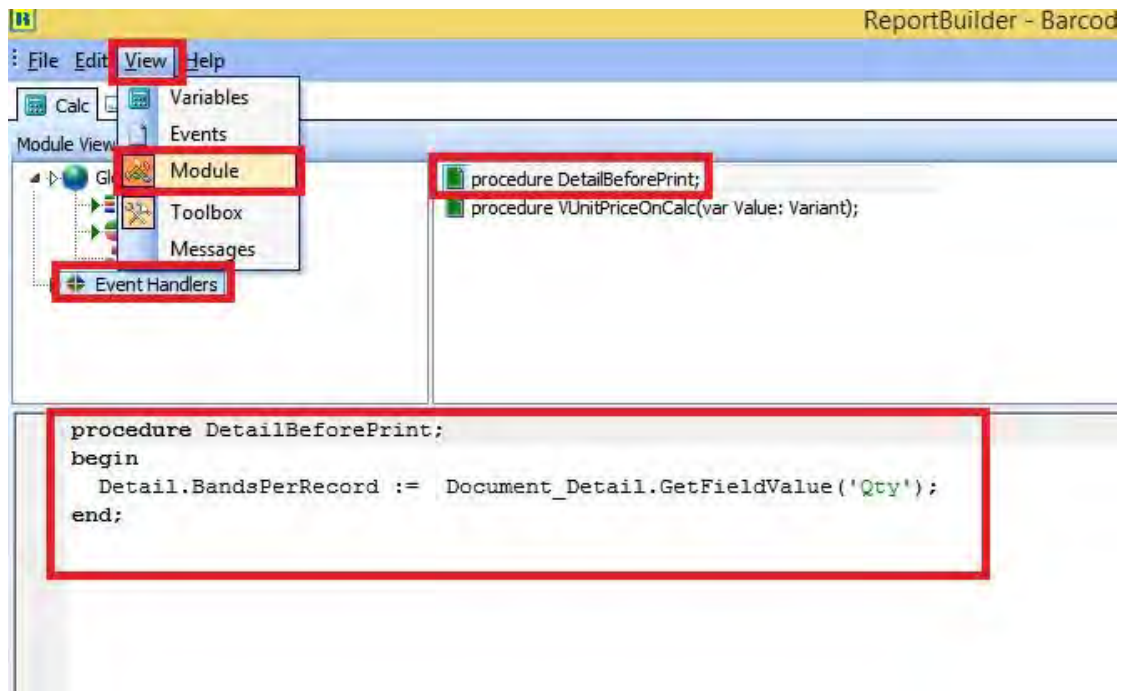

7.1 : Type : Select 128

7.2 : Bar Width : This is barcode width

8. GRN Barcode Event

View | Module | Click on Event Handlers | Procedure DetailBeforeDetail

This step is to capture Item Qty, if Qty 10, will repeat 10 Barcode label.

~~End~~
