Records 1 To 50

So now, you go into your SQL, add the agent code

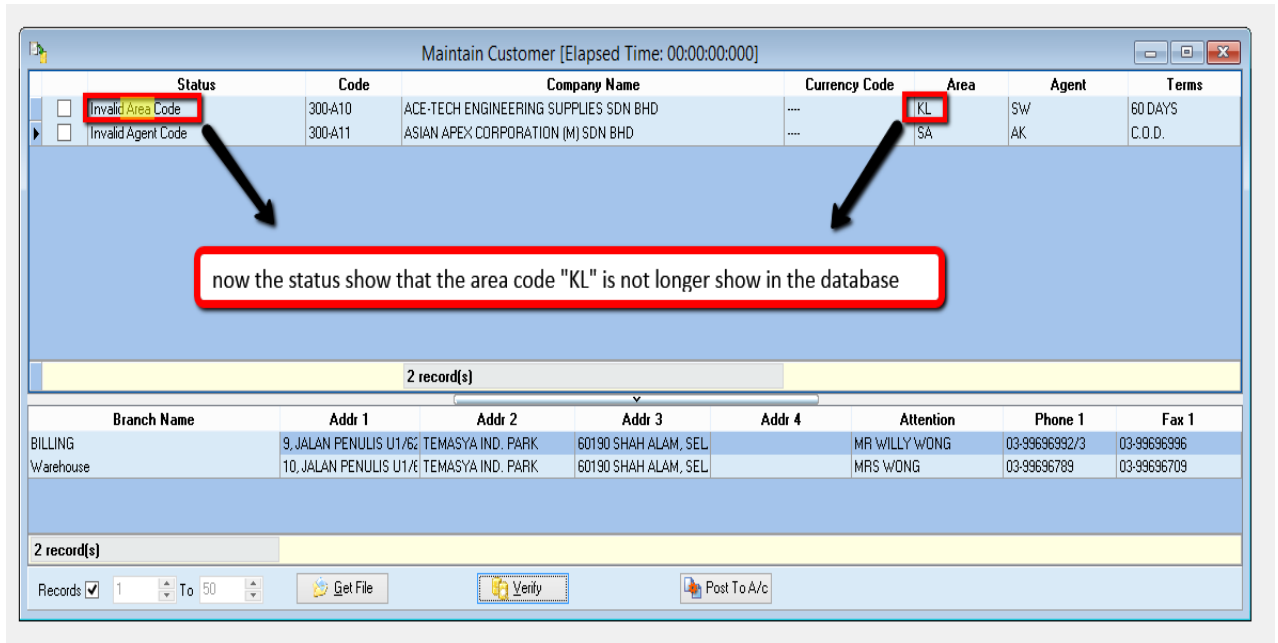

Step 8 :

Go back to the Text Import, **VERIFY** again.

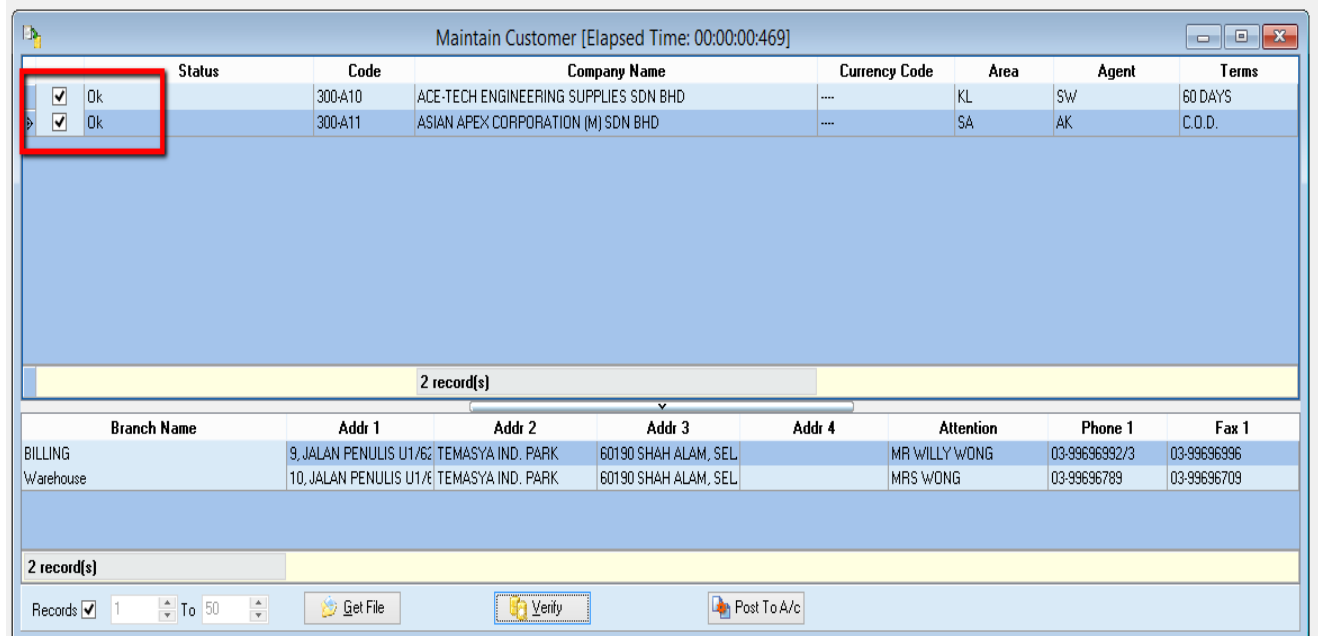

If the status show invalid again, go to the SQL and add in .

After add in, get the file and verify again.

For this example, go to Tools – Maintain Area

The status will shown "OK" once you complete.

Step 9 :
Post to A/C

Once you post to A/C, go to SQL.....Customer – Maintain Customer
Log out and log in again, the new customer name will automatically shown in the customer list.
